Sprinkler Wrenches

Standard Wrenches

These sprinkler wrenches are intended for use where sprinklers are mounted directly to the piping or where sprinklers are installed with surface mount escutcheons.

Important! The use of any tool to install sprinklers other than the wrench specified on this and other Reliable technical bulletins is prohibited . Any other wrench may damage the sprinkler and can result in leakage, unintended operation, or non-operation during a fire condition.

Model DS56 Wrench

- DS56

Model F3R Wrench

- F3 (Dry)
- F3QR (Dry)
- F3Res (Dry)
- DH56 (Dry)
- DH80 (Dry)

Model H Wrench

- GL112
- GXLO
- GVELO
- GFR VELO
- MBEC
- GSR112
- GQR112

Model J1 Wrench

- J112, JL112
- J168
- JL14
- JL17

Model W2 Wrench

- AH
- DD
- DH
- F1
- F1FR
- F1Res
- F1S5
- G
- GFR
- GP
- KFR
- LT56, LT56L
- KRes
- WP56
- WP56, WP56L

Model W5 Wrench

- HL-22
- N25
- N252EC
- TNL280
- P22
- P25
- N28

Model W13 Wrench

- K5.6 sprinklers with pre-installed D-1, D-3, D-4, and D-5 guards

Model W14 Wrench

- K8.0 sprinklers with pre-installed D-1, D-3, D-4, and D-5 guards
- Sprinklers with pre-installed F series guards

Model W15 Wrench

- Sprinklers with pre-installed D-6, D-7, D-8, and D-9 guards

Model W16 Wrench

- HL22
- P22
- P25
- N25
- N252EC

All with pre-installed sprinkler guards

Recessed & Concealed Wrenches

These sprinkler wrenches are intended for use with recessed and concealed sprinkler installations.

Model FC Wrench

- G5-56 Dry
- G5 without cap
- RFC without cap
- LT56C without cap
- WP56C
